- Problem Solving
- JavaScript
- Creative Thinking
- Node.js
- React
- MongoDB
- Adaptability to Change

## LANGUAGES

---

- English (Fluent)
- Yoruba

## PROFILE

---

- I'm a frontend developer with practical experience building responsive, interactive interfaces using HTML, CSS, JavaScript, and React. Currently, I'm learning backend technologies like Node.js, Express, and MongoDB to become a full stack developer. I'm especially interested in how systems connect from frontend to backend and I'm eager to apply and grow these skills in a junior or internship role. I'm proactive, quick to learn, and serious about becoming a well-rounded developer.

## WORK EXPERIENCE

---

- **Deovaze software solutions** 2023 - PRESENT  
Junior Software Developer
  - I implement interactivity like modals, dropdowns, forms, and dynamic page updates.
  - I create responsive designs so websites look great on phones, tablets, and desktops.
  - I collaborate with UI/UX designers to bring wireframes and mock-ups to life.
  - I debug frontend issues related to layout, style, or browser compatibility.
- **Melissa Yaqi** 2019 - 2020  
Machine Operator
  - Monitored machine performance to catch issues early and avoid downtime.
  - Performed routine checks and basic maintenance to keep machines in top shape
  - Set up machines before production starts
- **Patience Depot** 2016 - 2019  
Manager
  - Defined team objectives that align with the company's mission.
  - Created actionable plans to meet short- and long-term goals.
  - Oversaw daily operations to ensure efficiency and productivity.

## EDUCATION

---

- **Computer Science** 2022 - 2026  
Fountain University, Osun State.
